JavaScript length Property

JavaScript String Object

Definition and Usage

The length property returns the length of a string (in characters).

Syntax

```
string.length
```

Browser Support

The length property is supported in all major browsers.

Example

Example

Return the number of characters in a string:

```
<script type="text/javascript">

var txt = "Hello World!";
document.write(txt.length);

</script>
```

The output of the code above will be:

```
12
```
